Exploring Java™ Program Errors

In this exercise, you solve compilation and runtime errors.

Preparation

1. Go to the `exercises\mod01_intro\exercise1` directory.

Task

Perform the following:

2. Correct the `Test1` program.
   a. Compile the `Test1.java` file.
      Fix any compilation errors and recompile.
   b. Execute the `Test1.java` file.
      Fix any runtime errors recompile and re-run.

3. Correct the `Test2` program.
   a. Compile the `Test2.java` file.
      Fix any compilation errors and recompile.
   b. Execute the Test2.java file.
      Fix any runtime errors recompile and re-run.

4. Correct the `Test3` program.
   a. Compile the `Test3.java` file.
      Fix any compilation errors and recompile.
   b. Execute the `Test3.java` file.
      Fix any runtime errors recompile and re-run.

5. Correct the `Test4` program.
   a. Compile the `Test4.java` file.
      Fix any compilation errors and recompile.
   b. Execute the `Test4.java` file.
      Fix any runtime errors recompile and re-run.
